11. _____
Right leg facing width: tile, brick, etc.
12. _____
Hearth height
13. _____
Hearth length
14. _____
Hearth depth

3. Take the measurements and fill in the blanks.

To make sure your mantel will fit your fireplace and wall setup, fill in all the measurements that pertain to your application. You may have to modify this drawing for a special need. The more detailed your information, the better we can build your mantel to fit your home. **Note:** Numbers 4 and 5 are your firebox opening dimensions. Numbers 2 and 6 are your facing material dimensions (tile, marble, etc.), *not* the mantel dimensions.
